April 1, 2010

To our Valued Customer:

Thank you so much for your continued loyalty and support during the past year. I hope that your part of the economy is improving and that 2010 will be a profitable year of growth for you.

It is with great pleasure that I announce the promotion of Ramamurti K. Iyer as the Vice President of Marketing and Sales at California Turbo, Inc. As you know, Ram does everything with great enthusiasm and energy. He has been a great motivator and catalyst to our continued growth in the industrial cooling and ventilation industry of the Industrial, Commercial and Utility segments of the Power Industry.

You, the customer, are our primary focus at California Turbo. I can assure you that Mr. Iyer is your strong advocate in everything we do; quality, price, timeliness of delivery, requests for data, customization of our products and resolution of warranty issues. In his new capacity, Ram will be better able to guide our daily efforts to please (even delight) our customers.

Again, I'd like to ask you to congratulate Ram on this important achievement. He has earned it and deserves this new opportunity.

Sincerely,

Arthur V. May  
President
